

Maintaining the shape of District of IL03

'jim Longino'

to redistrictingcommittee

Dear Honored Committee Member,

I understand that you are now in the process of formalizing Illinois redistricting maps. I would like this to be my formal statement of my opposition any changes that could alter the general shape of IL 03.

As a lifelong resident of Congressional IL 03 , I wanted to take a moment to express my concern and I want to ensure that my voice and the voices of my family and neighbors can can still be heard in this district.

I am very concerned that the redrawing of these maps for IL03 will silence our ability to be a part of what has historically been a diverse and multi ethnic community and the ability of us to have a say in how this region has always impacted our economic community in terms of jobs, infrastructure and quality of life for all the residents in this area.

As a proud multi-generational Chicago Southwest Sider and now Near Western Suburban resident, I have seen the changes that have occurred in my district and I want to guarantee that the IL03 area also has the Chicagoland portion included since it impacts not only the residents there but also the residents where I currently live.

I would like you to maintain the general shape of this district as it stands currently so that we have a good representation of all the families and residents in this IL 03 area. Thank you.

Sincerely,

James F. Longino
La Grange, IL 60525
